DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of claims 1-12, 14-17 and 19-31 in the reply filed on 10/06/2008 is acknowledged. The traversal is not found persuasive because of a burdensome search (MPEP 806.01)

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-12, 14-17 and 19-31 are rejected under 35 U.S.C. 103(a) as being unpatentable over MAY (US 6,317,727)

MAY discloses an auction module 81 configured to receive multiple or batch orders on a single instrument at different price levels (or premiums), and in case of a switch auction, to receive a interest rate reset risk portfolio from the user. The inputted orders or portfolio is sent to the auction server 34 at the central processing center 12 where the auction or switch auction, respectively, is performed. The resulting matches are returned to the auction module 81 which presents the results to the user via the market interface module 74 (see May column 13, line 65 to column 18).
